

PRODUCT ADVANTAGES

- VISIOTRONIC control: single button control with remaining time indicator together with text and graphic display
- SENSO-ACTIVE resource management: constantly measures the quality of the wash water and keeps the amount of rinsing needed in each rinse cycle to the minimum in order to guarantee a fully hygienic wash result
- POWER wash: high-pressure washing to wash heavily soiled wash items
- CLIP-IN wash and rinse arms: wash and rinse arms can be removed with one hand and without any tools
- USB-interface: comfortable download of operational data in form of a protocol via USB
- GENIUS-X² fine filter system: advanced filter system with pre-wash function reduces detergent consumption up to 35%
- ROTOR-X wash system: separate rotating upper and lower 4-spoke wash arms deliver dynamic wash power
- VAPOSTOP (optional): prevents vapour to escape from machine when door is opened
- The optional drain heat recovery transfers heat from hot drain water to the fresh-water supply, saving up to 8.6 kW
- The optional exhaust heat recovery uses steam to heat fresh feed water and reduces the amount of power needed, saving up to 5.2 kW
- Loading height: above-average loading height of 860 mm
- Intelligent energy management: the available energy is used continuously. Thus, at a low total loading value the heating time gets reduced
- Interlocked strainer: prevents operation without tank strainer
- EASY-CLEAN concept: blue markings in the machine help the operator to identify the components which require cleaning
- Hygiene programme: for removal of calcium carbonate and other deposits from wash chamber
