PRODUCT ADVANTAGES

- **Compact glasswasher:** with an installation height of only 705 mm. With integrated reverse osmosis the installation height is 820 mm.
- **VISIOTRONIC-TOUCH control:** single button control with colour code and remaining cycle time indication. With colour display and touch.
- **WASHSMART APP:** controlling your warewash operation with smart technology: status and messages, usage and operating cost, hygiene, order service and consumables.
- **SENSO-ACTIVE resource management:** constantly measures the quality of the wash water and keeps the amount of rinsing needed in each rinse cycle to a minimum in order to guarantee a fully hygienic wash result.
- **CLIP-IN wash and rinse arms:** wash and rinse arms can be removed with one hand and without any tools.
- **Intelligent data documentation:** automatic recording of important operational data and consumptions and indication on the display.
- **USB-interface:** comfortable download of operational data in form of a protocol via USB.
- **GENIUS-X² fine filter system:** advanced filter system with pre-wash function reduces detergent consumption up to 35%.
- **Intensive programme:** intensive rinse cycle to wash glasses with critical design with raised fresh-water amount.
- **Interlocked strainer:** prevents operation without tank strainer.
- **Optional 100% integrated Reverse Osmosis water treatment system adds 120mm to machine height - item code GXCROI-90B**
- **Optional refill signal:** monitors contents of external as well as integrated chemical containers.
- **Hygiene programme:** for removal of calcium carbonate and other deposits from wash chamber.

DIMENSIONAL DRAWING

* Thermostop guarantees required temperatures with cold water and / or 240 V connection, the actual cycle times extend accordingly.

For machine protection the water hardness should not exceed 3°dH, if higher we recommend using an integrated water softener or an external water softener of the product line HYDROLINE PROTECT.
