

**PRODUCT ADVANTAGES**

- Prevents salt and limescale stains on dishes, glassware and cutlery in areas where carbon hardness is high
- Protects machine against limescale deposits
- Optimises the effectiveness of detergents - the dosing rate can be reduced
- Easy, tool-free exchange of cartridge
- Inlet and outlet hoses need not be disconnected to change the cartridge
- Designed for vertical or horizontal installation
- Pressure vessel lid equipped with built-in back flow preventer
- Does not require electrical supply
- High capacity
- Compact dimensions
- For cold and warm water
- Low investment cost

**TECHNICAL DATA**

Weight (gross / net)	24 / 18 kg
Maximum hardness	35 °dH*
Supply capacity	13,000 l at 10°dH
Continuously	5 l/min

\* Attention: the bending radius of the inlet and outlet hoses is approx. 130 mm - depending on the installation orientation and operating space, this must be considered in addition to the dimensions of the complete system. Consider water pressure loss of 0,45 bar

**CONNECTIONS**

Raw water connection	R 3/4"
Pure water outlet	R 3/4"
Flow pressure	2 - 6 bar
Max. supply water temperature	60 °C

**DIMENSIONAL DRAWING**
